

## The Maintenance Planning for Excellence Series

Provide a valuable professional development opportunity for your staff to achieve through this 4-Part **TrueWorkShop™** series

This series includes the following 4 TMEII **TrueWorkShops™**:

### **On-Site Training Opportunities**

*Put TMEII's expertise in maintenance and reliability training to work in your organization*

*TMEII is a results-oriented resource and provider of maintenance and reliability initiatives. You can benefit from our experience of presenting hundreds of on-site training and consulting sessions for large and small companies world-wide.*

Contact Pete Peters at  
919-270-1173 or

[Pete@PRIDE-in-Maintenance.com](mailto:Pete@PRIDE-in-Maintenance.com) for more information!

### **100% Guarantee**

*A complete refund is provided if you cannot achieve a 10 to 1 return on investment from this training.*

*Ralph W. Peters*  
President, TMEII

### **Reliable Maintenance Planning, Estimating & Scheduling (3 days):**

Recognized Worldwide as one of today's best sessions for successful implementation of the day to day planning/scheduling process. This **TrueWorkShop™** is a must for all new planners and also those organizations looking to improve their current planning/scheduling process. From TMEII's 200+ Scoreboard assessments we see this practice missing or poorly implemented. Now you will learn how it can improve Overall Craft Effectiveness (OCE) and productivity of in house staff and contractors.

**The ACE Team Process for Estimating (2 Classroom Days and Post Course Work):** Exclusive planner certification for this work measurement tool is available only from TMEII. This **TrueWorkShop™** requires completion of Reliable Maintenance Planning, Estimating and Scheduling (from TMEII or a credible source). It also includes guided pre-course work, the course work of 2 days **and** then guided post-course of 2 to 4 weeks to complete implementation of planner tools for establishing reliable planning times for all types of maintenance work. **NOTE:** Completing all **TrueWorkShop™** requirements provides a **Site License** to use **The ACE Team Process for Estimating**.

### **Effective Shutdown, Turnaround, and Outage Management (3 Days):**

This is a new TMEII offering which will provide you a new and deeper understanding of how to effectively plan, manage/lead large maintenance jobs such as power plant outages, refinery refits and in situations where an operation has extensive deferred maintenance to be performed in a short period. Also we will define how the day to day planning processes can also contribute more to shutdown planning via maintaining an accurate backlog of work that can be delayed until STO and then having accurate job plans available during the pre-shutdown period.

### **Maximizing the Value from Contracted Maintenance Services (2 days):**

This session is designed to improve coordination with outside maintenance contractors and gain maximum value and productivity from their services. As more and more work is being contracted it is important they use today's best practice while on site and are properly integrated with in house staff. It is very important to day-to-day planning and to planning for effective shutdown, turnarounds and outages.

## Who Should Attend:

- VPs
- Directors
- Division Head
- Managers
- Superintendents
- Specialists
- Supervisors
- Foremen
- Planners
- Schedulers
- Technicians
- Leaders
- Engineers from the following departments:
  - Maintenance, Operations,
  - Plant, Production,
  - Process, Preventative Maintenance
  - Reliability, Rotating

## Take An Important First Step:

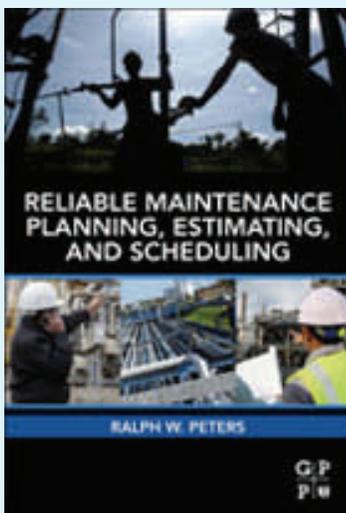

This training process is for application and not theory, and like the book, it is for both the public and private sector. It is for all types of maintenance operations: plant, facilities, hospitals and fleet maintenance.

Remember, we guarantee this **TrueWorkShop™** will help provide you with the important steps to improve the maintenance process and the business side of the maintenance storeroom in your operation.

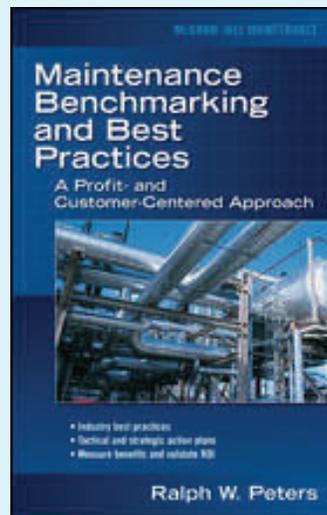

## Even in Good Economic Times Maintenance is Forever!

## Extensive Knowledge base of References to Take Home:

This workshop is based on Pete's two books:

*Reliable Maintenance Planning,  
Estimating and Scheduling*

*Maintenance Benchmarking and  
Best Practices*

TMEII provides more electronic references for all TrueWorkShops™ than any other series of courses now being offered from around the world.

Each attendee will receive e-book copies of these two major books plus many, many more valuable topic references on CD. The electronic versions are included to allow easy application and duplication of all course materials. Attendees receive all PowerPoint's used and "one of the largest Maintenance, Reliability and MRO Materials Management Glossary" currently available.

TMEII believes in providing each attendee an extensive knowledge base to support professional development well beyond actual class time.

# The Maintenance Planning for Excellence Series

## Your Instructor and Coach

**Ralph W. (Pete) Peters** the Founder/President of The Maintenance Excellence Institute International is your primary instructor. His experience of over 40 years has included being a manufacturing plant manager at two sites; director of facilities management. He has had extensive maintenance experience within the US Army beginning in Vietnam (1970) and with the US Army Corps of Engineers building what is now called, the National Highway. He consults and provides maintenance best practice training in over 30 countries, written maintenance chapters in four books as well as a book on *Maximizing the Value of Your CMMS*. In 2006, he wrote and published *Maintenance Benchmarking & Best Practices* for McGraw-Hill's professional book division. In 2015 he completed *Reliable Maintenance Planning, Estimating and Scheduling* for Elsevier's Gulf Publishing Division. Pete's positive approach and his experience from consulting, allows him to be an excellent coach for today's top leaders, maintenance leaders and craft leaders. His worldwide **PRIDE-in-Maintenance** initiative will be highlighted in his next book with key topics from this universal book included in all of his worldwide **TrueWorkShops™**.

## Training is Not Over When it's Over!

Your company will benefit most if you attend as part of a 3-4 person company team. Your company team will work together *and* return to your organization with new knowledge; team support for your new plans for reliability and maintenance excellence. We invite **Top Leaders**, **Maintenance Leaders**, and **Craft Leaders** to come as a team. If you come alone, you will work with others in a similar type maintenance operation for the team exercises.

**Yogi Berra once said, "It ain't over until it's over!"**

Your session is definitely not over when it's over! Following completion of this **TrueWorkShop™** a personalized follow-up will be scheduled for each attending participant and organization. Our one-on-one coaching will help you to apply:

- Your **Scoreboard for Maintenance Excellence** as a self-assessment tool
- The key topics from the workshop
- And, Implement your Plan of Action

We want to help you implement the plan of action you develop as part of the workshop. Successful implementation is your key to results. **We want to help you make that happen!**

## Gain an Understanding of the True Value of Maintenance:

Regardless of the type of operation, Top Leaders must understand the "true value of maintenance."

Maintenance Leaders must develop and nurture an organizational culture that clearly supports long-term continuous maintenance improvement.

**Training for Maintenance Excellence** supports our belief in the basics and building upon basic best practices as the foundation for advanced maintenance practices that achieve reliability and maintenance excellence.

**We Personally Guarantee This  
TrueWorkShop™ Series For At Least A  
10-to-1- Return on Your Training Investment!**

## We Personally Guarantee This TrueWorkShop™!

We will give you the firepower and knowledge needed to implement a successful PM program, to use the Predictive Maintenance and Conditioned-Based maintenance technologies that apply to your operation. We will reinforce your current maintenance needs to the top leaders in your organization.

We will help you be "the maintenance messenger" to get action from Top Leaders. We can personally help you make a difference in the total operations success of your organization after you attend this event! Top Leaders must clearly understand your needs and the consequences of gambling with maintenance costs and a bad PM and PdM program.
